Something New.

TUCKER & SON, always at the top of the IV. times, have just received, and have the pleasure to offer to the public, Hats of the rarest and most ingenious mechanism ever seen in this market. They are a French invention, lately introduced into this country, called Gibus's "shapeaux mecaniques"-mechanical Huts; for which the ingenious hatter, M. Gibus, has received the eulogies of the Society for the Encouragement of National Industry, and the Academy of Industry, of France, with gold and silver meadals. This hat is an elegant curiosity, as well as luxury, as it possesses an elasticity by which it can be folded into the compass of a cap, and then thrown out into the shape and smoothness of a moleskin beaver. Come and see. Dec. 18th, 1849.
